Experience

JPMorgan Chase

Senior Experience Designer, Channels Experiences • 2024–Present

Currently shaping foundational, in-channel experiences across mobile and web for all customer segments by obsessing over CX to improve servicing efficiency, accessibility, and cross-channel continuity, while driving core KPIs across CSAT, digital containment, task success, and self-service adoption.

Condé Nast

Product Design Lead, Global Product and Technology • 2021–2023

Led E2E product design across Condé Nast's News & Culture portfolio, launching scalable discovery, storytelling, and loyalty experiences for brands like *Vanity Fair*, *The New Yorker*, *Wired* and more. Highlights:

- Established global, live-publishing capabilities used by all Condé Nast brands (Increased UVs +300% and time spent, +160%).
- Unified podcast discovery in owned channels (Increased UV +30%, and introduced new O&O revenue and recirculation opportunities).
- Redesigned the Vanity Fair homepage to unify brand expression, align content with editorial strategies, and improve discovery (Increased CTR +15% and CSAT +7.8%).

frog, part of Capgemini

Senior Experience Designer • 2021–2021

Drove visual, experience, and interaction design activities on cross-functional teams supporting start-ups and enterprises in their 0-to-1 product journey. Highlights:

- Designed and shipped the *Iris* app, an oncology-focused telehealth platform, for people affected by cancer (available on 18+ health plans, serving 50M+ people).
- Led product research and testing to uncover new market opportunities for a leading global fintech (\$26B market cap).
- Oversaw design execution through launch for *Sesame*, a mission-driven, hospitality marketplace app (\$3.4M valuation).

Blenderbox

Design Lead • 2016–2020, Sr. Visual Designer • 2011–2016, Visual Designer • 2010–2011

Led E2E visual and experience design of digital products and websites for clients across education, cultural, civic, and government sectors to drive meaningful engagement and advance mission-driven organizational goals. Highlights:

- Transformed outdated websites into strategic communication tools for some of the most noteworthy non-profits in the country, like the Andrew W. Mellon Foundation, the Carnegie Corporation, Henry Luce Foundation, the Robert Wood Johnson Foundation, RFK Human Rights, and more (increasing scalability and mission alignment and reducing content deployment time across the board).
- Designed and launched NYC's first online community service option for resolving a civil summons, in the form of 1 and 2-hour-long, SCORM-compliant online courses, translated to the 8 most commonly spoken languages in NYC (18% quarterly adoption rate among respondents).
- Pioneered vital NYC government programs like WeTeachNYC, a PD resource serving the largest public school district in the US (leveraged by 90k+ NYCPS staff yearly), and WeNYC, an ED platform helping women entrepreneurs across the city grow their businesses (20k+ women served, with a 56% business growth rate).
